

LION NATIONAL CORP

Cooperative Purchasing Contract Specialists

Through the NCPA affiliate program, LNC specializes in assessing our client's current position through detailed evaluation and strategic planning. We then assist in identifying opportunities with the highest likelihood of success to generate revenue growth in the cooperative purchasing marketplace. We provide services that are tailored to the client's business capabilities and goals, for small companies new to the marketplace or large-scale entities seeking expansion opportunities.

LNC's expertise provides the logistical assistance and training our clients need in order to confidently navigate the complexities of government contracting. We streamline the process of procurement, maintenance, and compliance, allowing management to focus on the growth and performance of their business.

In addition, LNC has a small business development program that assists clients in the procurement and management of Federal, State, and Local Government construction contracts. For more than 10 years, we have provided tailored consulting services related to market intelligence, corporate registrations and compliance, opportunity identification, technical proposal writing, project management, and establishment of partnership opportunities. Our methods have proven successful for achieving our clients' goals pertaining to government contracting and increased revenues and profitability.

Our network of clients and partners include companies with proven success in various industries, representing a wide range of products and services. These companies are varied in size, scale, and ownership type. Strategic partnerships help agencies meet minority participation goals, and leverage the strengths of the partners to maximize efficiency and profitability. We work with SBA-certified HUBZone, 8(a), WOSB, VOSB, SDVOSB, DBE, and Native American Owned businesses. Our network extends coast to coast, allowing us to service agencies regardless of geographic location.
