We are taking every step we can to implement innovative and responsible environmental practices throughout NCPA to reduce our carbon footprint, reduce waste, energy conservation, ensure efficient computing and much more. To that effort we ask respondents to provide their companies environmental policy and/or green initiative.

Nasco is committed to responsible environmental practices in our business operations. Raw material used to produce our products is repurposed into new products when possible. Leftover materials are sold to recyclers. Paper, plastic,

and packaging materials are reused to keep costs in check and reduce waste. Nasco formed a Green Team which investigates renewable energy and cost effective upgrades to control utility costs. Many areas in our facility have been upgraded with motion sensors to turn off lights and timers were added to water heaters so they run on off-peak hours.
