Capital Planning + Construction Project Management

- ✓ Capital Planning
- ✓ Fund Management
- ✓ Project Financials
- ✓ Document Management
- ✓ Estimation & Bidding
- ✓ Project Management
- ✓ Contract Management
- ✓ Field Management

Aurigo Essentials helps small cities, counties, and public agencies across North America operate more efficiently, reduce project risks, and ensure projects are delivered successfully

Operate efficiently

- **Increase productivity by 30%-70%** with digital data collection and business process automation.
- **Eliminate paper forms** with mobile-first data collection, even when users out in the field aren't connected to the Internet.
- **Finish projects faster** and minimize the risk of cost overruns.
- **Save taxpayer money** with increased visibility, schedule control, risk management, and reporting.

Reduce risks

- **Ensure projects are delivered on time and on budget** with full lifecycle construction project management.
- **Prevent cost overruns** with automated estimations, bidding, scheduling, and contract administration.
- **Get notifications** when there are issues with any project, asset, contractor, or payment.
- **Increase transparency** with an official system of record for every project, stage, and dollar spent.

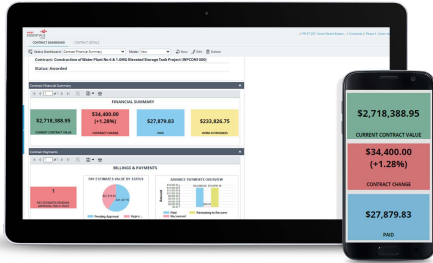

Ensure project success

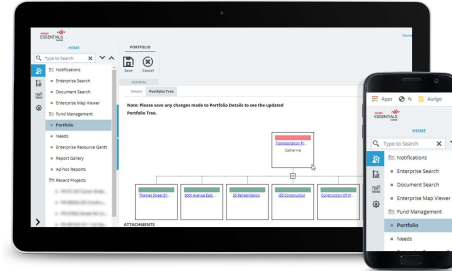

- **Use an all-in-one solution** that addresses every phase of the project.
- **Get visibility** across all projects as well as into the minute details of each one.
- **Ensure your capital assets are properly maintained** after completion for long-term safety and success.
- **Leverage Aurigo's 15 years' experience and expertise** in helping cities, counties, and public agencies successfully plan, build, and manage their infrastructure and facilities.

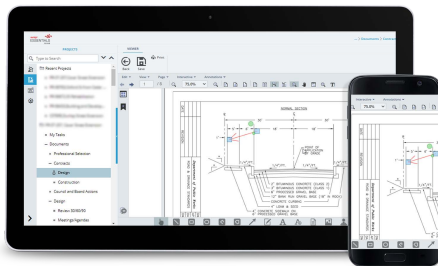

Aurigo Essentials gives cities, counties, states, agencies, and businesses modern cloud-based software for capital planning and construction management.
